

9. JOBS AND EMPLOYMENT

Choosing a job is an important step in everybody's life. Small children usually don't know what they want to be. At first they admire so-called „hero“ professions such as pilots, astronauts, firemen or policemen. Girls on the other hand dream of becoming actresses, models, singers or ballet dancers. But as they get older they become more and more realistic. Some children look up to their parents and want to follow in their footsteps, therefore there are generations of doctors, teachers, actors...

-Various statistics show that young people with higher or university education have a better chance of finding a good job. (so, education is very important.)

EMPLOYMENT(zamestnanie) is a contract between an EMPLOYER(zamestnávateľ) and an EMPLOYEE(zamestnanec)

People who have their own business are self-employed. The UNEMPLOYED are people who do not have a job.

-When people search for a new job, they look at several factors, such as type of work, possible promotion(povýšenie) and career development, salary, working time, travel opportunities, place of work and others.

The available(voľné, dostupné) positions are published in the newspapers or on the internet. The candidates send the job application and their CV (curriculum vitae). Their CV should include personal details: name, address, date of birth, nationality, telephone, e-mail...) details about education, skills(using a computer, foreign languages, car licence...) and work experience

The best candidates are invited to an oral interview. At the interview, they usually answer questions, describe their motivations and expectations.

Candidates should prepare well for the interview, answer clearly and stay calm. Successful candidates are offered a job with a starting salary, position, medical benefits and vacation days.

-People have full-time jobs

-part-time jobs

Doctors, nurses, truck drivers work in shifts.

- Some people work manually, for example: workers, shop assistants, dressmakers, hairdressers, miners...

-Some people work intellectually, for example teachers, doctors, lawyers, artists, scientists...
